

Volume 18 Issue 1

Winter 2014

Merry Christmas!

Another Christmas is upon us, and it's so easy to feel overwhelmed! Many of us are busy, with so many responsibilities. Christmas should feel welcome, because it promises the opportunity to step back and reflect, spend that much loved time with family and friends, and do special things we only do at this time of the year. Those can be some of our most important and cherished responsibilities we have.

Reflecting on what the year has brought us, here at the shop, we have a lot to give thanks for. Our families are growing, our livelihood thriving and the future looks bright as a shiny new penny. You and people like you are the reason for that. We say it a lot, and it bears

repeating – we are so lucky to do what we love, and really appreciate it when you ask us to help you with that passion too. A deep thanks to you.

We've had more people come to us to outfit their automated home this year than ever before. The demand is exploding. With the added demands come growing pains, & we've responded by adding new staff in our install and programming departments. As you know, it's always hard to find quality people, but we sure have! The level of sophistication in the automated home, and what is possible changes daily, and today we have all of the elements to continue to raise the bar in every aspect of that area of our business.

We've been blessed to be able to offer the great high performance brands we carry – everything from turntables & music streaming devices to curved 4K TV's.

It seems it's always an exciting time to be in this field, and what's available has never been as much of fun to explore as it today!

So if you find yourself in need of suggestions for that special someone, or a gift to the home for all of you, now's a great time to drop by for a visit. Take a look at a few of the things we suggest in this letter. Remember that we offer our boxing day pricing to any client who actually read this far too! Just mention you get our mailer and there's no reason to worry about the cost of anything you decide on. It's our way of thanking you for the support you've already given to us.

From everyone here at K&W, we wish you a very Merry Christmas, & a Happy and Prosperous New Year!

Buy a Definitive SuperTower Surround System and get *FREE* Surrounds

Buy a Definitive SuperTower System and Get a FREE Center and pair of Surround Speakers (Save \$1,149.00!)

We love Definitive Technology Super Towers. They are a winning combination of performance, styling and value. They also, simply flat out rock.

channel speaker *and* a pair of complementary matching surround speakers FREE.

That's a saving of over Eleven Hundred Dollars!

This is a great time to move up to the music and theater speaker system of your dreams, because until the end of January, when you purchase a pair of the BP8060 Super Tower speakers for \$2,299.99 you get a matched Definitive center

Sometimes you want it to be just you and your music, in your own personal space. Headphones give you that, and they don't let anything come between you and your favorite artist.

Headphones are a **Great Gift** idea for anyone, and we have fantastic brands for you to choose from, on sale. Choose from Grado, PSB, Parrot, Sennheiser, Monster, Paradigm, & NAD for that special someone!

There is no mystery to good sound!

Vinyl is Back and Beautiful!

The thing about being at the top is that everyone wants a piece of you. That's certainly the case when it comes to the Pro-Ject brand Debut Carbon turntable – an award-winner & our turntable of choice. In fact, it performs on par with exotic offerings with four-figure price tags. For the competition to keep up all they have to do is half their price!

magnet cartridge - it's not only high end cool, but it comes ready to go right out of the box. Just add your favorite vinyl disc!

Offering a super-light, strong tone arm, made of carbon fiber, a weighty metal platter, fully suspended DC motor, felt mat, and mount the delicious Ortofon 2M Red moving-

Available in all sorts of funky colors (including Black :), **On Sale** for Christmas at only **\$449.99**. Who wouldn't want one?

Great Sound From Your 'Phones or Computer!

Marantz has unveiled another piece of mouth-watering gear in the form of its new HD DAC1 headphone amplifier. Behind the gorgeous solid aluminum faceplate and wood paneling lies real high-end circuitry, borrowed from its High End Reference series products.

Offering advanced digital clocking, support for multiple hi-res file formats, and a heavy helping of high-grade components, the new HD-DAC1 offers top-notch playback for your top-end headphones, and more.

The amp can push multiple headphone impedance levels, including the big 600 ohm guys, and feed your powered stereo speakers sweet sound as well. It can even be a great DAC for your computer - via it's built in USB-B connection.

This is a serious high end piece, yet really affordable. Pure craftsmanship, a real quality feel and a future classic! **\$849.99 On Sale!**
