

Merry Christmas!

Season's greetings! We hope you get to spend the time with family and friends during the holidays, and that Santa brings you what you want.

For us, this last year was a real blessing. We celebrated our 40th anniversary in business and we're thankful for prospering by providing what we do and love for people just like you.

In the biz, this year we've seen really exciting advancement in all areas of the electronics world.

McIntosh is notable in the big changes department. They've offered up many new models this year, in a line revamp seldom seen in their storied history. Great new power amps, cool surround processors and source components with higher performance have really invigorated their line.

Home Automation has arguably advanced the furthest over this past year though. Control4's release of their revolutionary OS3 platform, and the uber cool Neeo remote touchscreen have raised the bar on the user experience in controlling everything in the home... simply.

The world of high-resolution TV's has now progressed to 8k and even more importantly, HDR has taken hold. These high-res technologies have dramatically raised the bar on picture quality again. That's extended into Home Theater projectors this year, with JVC the recognized leader today.

Never before has a massive image looked so dog-gone great!

Then there's music. Good old stereo & turntables too! Who would have guessed that in 2019 vinyl outsells all other forms of hard music media? Technics, Marantz, McIntosh, & Project remind us why taking a moment and just sitting down to listen to an LP is something we need to make time for.

There's much more to talk about, of course, but so little room! You'll just have to drop by for a look and listen to the rest.

Everyone here would like to thank you for your support, & we all wish you, your family and friends a very Merry Christmas & the very best fortune in the New Year!

Your Personal Paradigm

Everyone needs a truly great set of speakers. The rich music you love comes to life in your home with speakers that are capable of reproducing every subtle nuance.

Paradigm are a Canadian treasure, making some of the finest speakers in the world. Treat yourself to years and years of fantastic sound with a new set of Paradigm speakers.

Adding effect speakers to your surround system, blending outdoor speakers with the landscape or finding that perfect stereo set for the liv-

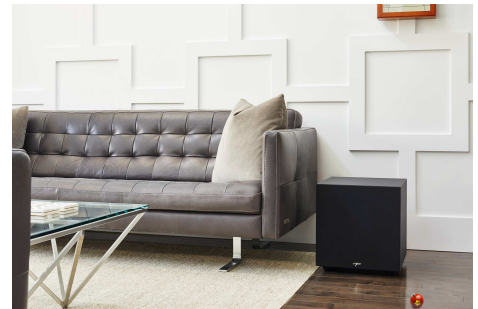

ing room – Paradigm speakers will stun you with their realism, presence, high quality and beautiful looks.

Need a set of speakers to fill a large area, like the living room? Incredible Paradigm Persona tower speakers fit the bill & look great doing it.

Need even more presence from your existing set? Add a powerful sounding Paradigm Subwoofer to the mix—connect it to your system wirelessly, then control it with an app on your phone!

All On Sale For Christmas.

Technics To Refine The Quality Turntable

Many turntables have problems with degradation in sound quality caused by factors such as minute speed vibration during rotation and rotation irregularity called "cogging."

The SL-1500, uses a newly developed coreless direct-drive motor, which eliminates cogging.

The rotor construction as well reduces bearing load while maintaining high torque and reduces vibration during rotation.

These factors enable the extraction and reproduction of the warm, exquisitely detailed sound etched on your treasured records.

The aluminum die-cast chassis exudes obvious quality too.

Add in a great tone-arm, built in phono pre-amp (as well as conventional outputs), including a great pre-mounted Ortofon cartridge and the unique convenience of auto cue up at the end of a record, and you have a winning combination.

It's the new SL-1500. There has never been a better time to be a vinyl lover.

On Sale For Christmas.

Add Power With Sonos

Anyone who has a Sonos system loves it, and every Sonos system sounds dramatically better with a Sub.

Enhance your listening experience in any room by wirelessly connecting Sub to your Sonos system.

Add more power & dimension to your Sonos home theatre or pair Sub with Playbar, or Play 1, 3, 5 for richer music in any room.

It's very easy to place in any room, available in White or Black, and an optional wall mount is available for a very cool custom installation look.

The best part, it's on sale for only \$749.00.

You can even add it as a standalone sub to any other brand of speakers.

That's a huge \$150.00 saving for Christmas!

Upgrade Your Surround Sound

Home Theater Receivers have improved over the last year. Voice Control, Airplay2, ATMOS, IMAX, 4K Dolby Vision and more mean if your present home theater receiver is getting a bit long in the tooth, a new one will really kick movie night up a notch or two.

Start with Marantz. American heavy iron started by audiophile Sol Marantz back in 1952. Today they still offer high-end audio performance with superior build quality.

Their SR7013 is the latest Home Theater reviewers darling. It's all singing and dancing, and we just made a special buy for Christmas - along with the top line SR8012, to bring you the absolute best prices on your fabulous surround sound upgrade.

Don't forget Yamaha or the Canadian favorite Anthem either. Each of these fine brands have leading edge receivers with all the performance to bring your movie and TV listening experience to a new level. **On Sale For Christmas.**

GO FURTHER, BE THE FIRST
World's First 8K e-shift Home Theater Projector

8K e-shift

If it's a Home Theater, it's got a projector. Today, Home Theaters have larger screens, and better pictures than ever before. **Ever.**

Credit goes to the projector for that. JVC are the flat-out leaders in 4/8K, HDR bright projection today, and their new line of DILA projectors set the benchmark in big picture wow factor.

Designing new, or updating your existing home theater, JVC has a stunning projector choice for you. Beyond all the tech that gives you that rich picture, they are built like a fine swiss watch, painted like a high-end car and offer the accessories to make the installation look fantastic.

On Sale for Christmas, and don't forget that Stewart Filmscreen!

Last Minute Ideas

If you still haven't found that elusive gift, we have a couple of quick parting thoughts.

For that special someone who has a vinyl affection, a turntable or cartridge is a great idea. We have price and performance levels for everyone. How about a really cool tube amp in the home office? A pair of headphones? Even a head-phone stand or extension cable?

Or - rip their CD collection to a hard drive easily with a Bluesound Vault.

The Neeo remote is the winner for anyone with a Control4 system too. No programming needed.

We have more ideas, but no more space! So come see us today, we do have what you need.

Merry Christmas!
