

Volume 26 Issue 1

Winter 2022

## Merry Christmas

We wish you & your family a joyful Christmas season.

This year we truly turned a corner. Finally, there seems to be a return to what feels “normal” & what a welcome return it is! Of course, there are always challenges on the horizon, but this year they seem a little less daunting. Thankful for that, we hope that in 2023 you will be able to get back to spending more quality time with family & friends.

Here at the shop, delivering great music, movies & convenience to your home continues to be our passion. We’re so lucky to be able to do what we love for you, & we know we have the best job in the world!

Supply chains have been challenging this last year, but our suppliers finally got a good handle on availability – just in time for Christmas.

Some big news for us this year is bringing on the famous Bowers & Wilkins line. It’s been a great addition to our already insanely strong offering of speaker brands, & they started to roll through the door just in time for new model releases. This legendary company have a wide range, with their top of the line 800 series revamp stunning all that listen to them.

On the video side, 8K TVs of all sizes & native 8K Home Theater projection has truly arrived (an industry first from JVC). HDR10 & Dolby Vision contribute greatly too, making the picture not just sharper, but richer.

The surround sound arena has seen the introduction of all new 8K compatible processors from everyone, with Dolby ATMOS spatial sound now the audio standard for Blu-ray, AppleTV, Amazon Prime & even Netflix.

Control4 has a new smart lighting line and added a new line of beautiful con-

temporary buttons for their smart lighting switches. Cool new remotes are on the horizon along with some very nice software updates too. If you’ve not talked to us recently, call for your free system software update. New features & increased speed await & we can often update you online – so no home visit is required.

Thank you sincerely for your support - now for well over 40 years. As we do, we’d like to show our appreciation by offering you Black Friday & Boxing Day pricing in advance of the actual day.

When you shop before Christmas, just mention this mailer to receive the best pricing when you buy & can enjoy the holidays with your family.

Merry Christmas & a very Happy, Prosperous New Year to you & your family!

## Bowers and Wilkins

Bowers & Wilkins are famous for their no compromise pursuit of music.

If your home needs better quality sound, perhaps now is the time to treat yourself to a fantastic set of new B&W of audiophile speakers.

B&W offer incredible sound for everyone's taste and budget, and their premium look and feel add to any homes décor.

Stereo, Home Theater and in-ceiling speakers, along with killer headphones they offer many great sounding options for a ton of applications.

If you just want to add a smart speaker to your home, look no further than the famous Zeppelin. It's a wireless smart speaker reimagined for the streaming age adding high-resolution stereo sound to a comprehensive range of smart, connected features.

## Control4 Smart Lighting

Lighting control is at the core of most smart homes today and do so much more than just light switches. Control4's new Contemporary Lighting controls with a beautiful new modern design that suits your home.

Contemporary Lighting control offers clean, sophisticated design that you'll love in every room.

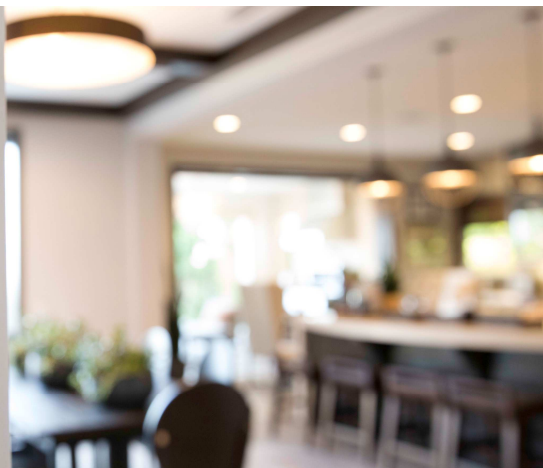

Elegant backlit engraving provides at-a-glance feedback to show if a door is un-

locked, the garage door is ajar, or if lights are on in other areas of the house.

Premium buttons simplify interaction, and with the choice of ten exclusive finishes, there are plenty of options that will beautifully complement your style and décor.

## Sonos On The Go

Sonos has something for just about everyone. This years popular offering is the Move.

The Move represents a number of firsts for Sonos. It's a portable—built to be used indoors or outdoors, and has an internal battery, which is good for up to 10 hours of playback.

There is also an included charging base to keep it charged when it's in your home and supports Bluetooth.

These design choices add up to a speaker that's far more versatile than any Sonos has made thus far.

Stream music, radio, audiobooks, and more from all your favorite services, and take the sound from room to room and beyond.

Available in black or white, it's a great present for any one, from present Sonos owner to brand new to the Sonos world.

## New Home Theater Receivers

This years A/V Receivers have improved with the addition of HDMI 2.1 and the ability to process 8K video resolution. Very few manufacturers offer this technology presently, but we have them.

So, let's begin with Marantz. Their new receivers are the first to offer "HDMI 2.1" compatibility. Now with 8K quality video from your 8K source device, and 8K upscaling for those non 8K sources, along with Dynamic HDR and Quick Media Switching (QMS), you can enjoy the clearest and smoothest picture quality available.

You still get Voice Control, Airplay 2, ATMOS, online streaming and that rich, great sounding Marantz power too. **On Sale For Christmas!**

Anthem is a cool Canadian brand that have just introduced a whole new lineup of receivers, processors and power amps. They also come with the new HDMI 2.1/8K compatibility, just like the latest Yamaha offerings too—all in time for Christmas!

Availability on these leading edge latest offerings will be tight this year. So, if you need one, please let us know as soon as possible.

## Update Your Theater Projector to Laser

With 8K video now all the buzz, the latest laser JVC projectors are ready to go. The DLA-NZ series are the world's first native 8K/60P/4K/120P home theater projectors.

Even on the largest screens, 8K resolution (8192 x 4230) with HDR10+ rivals reality. They now also feature a BLU-Escent laser light engine, so no more bulbs to replace and an incredibly long life expectancy with longevity of up to 20,000 hours!

JVC projectors have industry leading performance, reference level contrast, color saturation and high end video processing.

What do these upgrades mean for the image quality? Simply put, they deliver absolutely the best image for movies that we've seen from a home theater projector.

Experience JVC's latest projectors, and the best image a home theater projector can deliver!

## Stocking Stuffers

We have reached the end, and if you still haven't found that "spark", here are a few more ideas;

How about a really cool tube amp? A pair of headphones? Or a headphone stand?

Or, a Control4 universal remote to end all that coffee table clutter? (always a favourite).

For that special someone who has a vinyl affection, how about a turntable or a cartridge or a record brush? We have price and performance levels for everyone.

Bluesound has a great option that allows you to rip your entire CD collection without loss to a hard drive, easily.

We have more ideas for you - just no more space! So, just come see us today. We have what you need.

**Merry Christmas!**
